

GIC incubated Startups Showcase their innovation during Hon'ble PM's visit to the India Israel Innovation Initiative at iCreate

Date: 17th & 18th January, 2018

Venue: iCreate, Deo Dholera

OBJECTIVE:

Hon'ble PM Narendra Modi and Israel PM Benjamin Netanyahu's main objective to visit iCreate was to revolutionize innovation in India by joining hands with Israel and strengthen the startup ecosystem of India with good quality Startups of State to demonstrate their Innovation in Exhibition.

ABOUT THE EVENT:

Claiming that Prime Minister Narendra Modi's visit to Israel last year and his ongoing visit to India marked a new era in "Israel-India cooperation," Israeli PM Benjamin Netanyahu on his maiden visit to Gujarat on Wednesday said that "technology and innovation" are the most exciting avenues for future cooperation. Netanyahu also touched upon past ties between Israel and Modi's home state in his address. Modi and Netanyahu reviewed products of leading Gujarati start-ups showcased at the iCreate fair, besides taking note of winning entries from the India-Israel Global Innovation Challenge-2017. During the course of his visit, Netanyahu presented the Indian premier with a unique gift – the GAL Mobile the two leaders rode on during the latter's visit to Israel's Olga beach last year. The GAL Mobile, an independent vehicle with water purification capabilities, can be useful during military conflicts or natural disasters such as floods and earthquakes. It can purify up to 20,000 litres of sea water and 80,000 litres of brackish water per day. Associates and college VPs attended the meet and enhanced their vision towards innovation.

GTU AND INCUBATED STARTUPS IN EXHIBITION

GTU has been invited to witness the Hon'ble PM's visit by iCreate and incubated Startups Stardust, Mod Engineering, CPM Industries, WEPaint and SAN-Burn have actively participated in demonstrating their Innovation in Exhibition.

Startups have experienced good responses from visitors and appraised the Innovation done by Innovators. We have two Stalls viz GTU and SAN-Burn. Corer Committee of Udyog Bhavan has selected SAN-Burn to showcase their Innovation in Exhibition where Hon'ble PM have walk through and see the Innovation of the Gujarat.

52 GIC Student Associates have actively participated in the function for 2 days and witnessed the august gathering. Associates have interacted with good Innovators, expert guests and Industrialists.
