Signature of Applicant

Signature & SEAL of the
Head of Department/ Institute

About CVM

Charutar Vidya Mandal was established in the year 1945 by Shri Bhaikaka and Shri Bhikabhai Saheb as a charitable trust with a prime objective of rural development through education to bring about the social awakening, social upliftment and enrichment. Over the subsequent years, Dr. H M Patel (the first finance minister of India) consolidated the efforts put in by the founders. Later on, in the 1990s, when Dr. C L Patel took over the reigns of CVM as the Chairman, the country was facing a major economic and ideological change paving the way for globalization and liberalization. Various self financed educational institutions started being established in the areas of Technology, Science and Engineering, Commerce and Management, offering emerging and innovative courses and programs. At present, CVM operates 48 educational institutions with 45000 students on the rolls from 18 states and 12 countries across the world.

About BVM

BVM is a Premier Institution of CVM founded in 1948. Motto of BVM: Work is Worship. BVM is the First Approved Degree Engineering College of the Gujarat State. More than 18000 engineers have been graduated from this college. BVM College is also first academic autonomous Engineering Institute of Gujarat State. BVM offers B.E., M.E./M.Tech Degree Programs. The College is affiliated to the Gujarat Technological University and is situated at Vallabh Vidyanagar. The most striking features of BVM are dedicated and experienced faculty base.

About IT Department

The IT department (SF) accredited by NBA for 2 years offers under graduate program in IT. The department is best owed with highly qualified and dedicated faculties, well equipped laboratories and skilled & committed supporting staff. The department conducts seminars, workshops, expert talks regularly on recent topics related to IT.

Programme Objectives

The main objective of this Programme is to provide teaching faculty of Information Technology, Computer Science and Electronics with a deep insight in to the field of Android Programming and application development. The Programme introduces the design and implementation of Android applications for mobile devices. One can develop an app from scratch by assuming a basic knowledge of programming as prerequisite. Learning the setup of Android Studio, to work with various activities and create simple user interfaces for running apps smoothly. As the Android operating system caters to a wider audience presently, the course will be helpful for all those who are looking forward to know more about Android applications.

Course Contents

- Android architecture
- Introduction to Emulators
- View and Layouts
- Android components
- Intents, Listview, Webview
- Data handling and Storage
- Async Task, Services
- Publishing application on play store
- Android with openCV

Resource Persons

Experts from various premier institutions and also from industries

Registration Details

Rs 1000/- for Academicians/Researchers (ISTE Members)

Rs 1200/- for Academicians/Researchers (Non-ISTE Members)
