Description:

Over 2,500 universities and institutions trust Quanser to strengthen their reputation through innovative teaching and research labs that consistently replicate theories and bring engineering mathematics and concepts to life. Quanser is the global leader in the design and manufacture of dynamic platforms and complete lab solutions that have transformed the way educators teach the theory, application, and implementation of controls, robotics, and mechatronics. Please join the Quanser webinar to learn about a modern, comprehensive hands-on and industrially relevant approach to Mechatronics and Engineering Systems Design Education. This webinar will serve as an intro to the hands-on workshop that will be conducted by the Quanser team at ICTIEE in Noida and Madurai.
