Description:

The initial phase of the webinar will focus on the true essence of Outcomes Based Education (OBE). Here, OBE will be viewed as comprising two major components: (i) the collection of relevant data and its analysis, and (ii) analysis of data, leading to improvement in academic procedures. In addition, defining Course Outcomes (COs) for UG/PG programs will be addressed in brief. The emphasis will be on inherent quality improvement through an effective implementation of OBE.

The second phase of the webinar will focus on the professional growth made possible through active association with IUCEE, since 2008.
