

Sensitization of Vice Presidents from Innovation Clubs of colleges of Ahmedabad Zone

Date: 5th and 6th January, 2018

Venue: Block-6, GTU Innovation Council, Ahmedabad

Associate team at GIC organized a **SENSITIZATION PROGRAM** for Vice Presidents of different colleges of Zone-1(Ahmedabad). Each day, 6-7 colleges participated. The program proved helpful for creating awareness of GTU Innovation Council and activation of GIC Clubs in every college.

ABOUT THE EVENT:

This program provided direct platform for interaction between GIC and VP's of GIC Clubs. Firstly presentation on GIC goals and pillars was given followed by Associateship program. Information and ideas were shared openly without any intermediates (such as Faculty coordinator). It enabled the young folks to understand the place and working of GIC. At the end of the day, VP's were provided with some tasks to be executed at their respective colleges.

OBJECTIVES:

- To create awareness about GIC among VP's.
- To make them understand the need and use of GIC.
- To activate the GIC Clubs that have been established in colleges long before.
- To make students aware regarding Startup Policies of the Government, GTU Student Startup policy, Product Development and Marketing
- To help students to know how GIC can help to transform their ideas to product/service/process which can be useful to the society.
- Allocation of regular tasks to keep the clubs active and fruitful.
