

Excellent Placements at
Electronics and Communication Engineering Department
V.V.P. Engineering College
52 Students from EC - 2015 batch are already placed before
completion of the 8th Semester

It has been Hat-trick of Electronics and Communication Engineering Department, V.V.P. Engineering College, Rajkot for giving placements to more than 50 students during their studies in final semester. This time there are still two months remaining in completion and 52 students are already placed in MNCs and well-known companies (TCS, e-Infochips, Matrix Comsec, Interface Pro, Embicon Techhub, Ishan Netsol Pvt Ltd, Arial Telecom Solution Pvt. Ltd, NConnet Infoway Pvt Ltd, Unify Enterprice etc). MCBS & Elecome Integrated System have selected five and six students in their first round and soon they will conduct their second round.

Electronics and Communication Engineering - 2015 batch placement

e-Infochips placement

EmbiconTechHub placement

Our 2014 and 2015 batch students currently working with esteemed MNCs like IBM, Wipro, TCS, Infosys, L and T InfoTech, i-Gate, Congnizant, Vodaphone, Reliance Digital, e-Infochips, Matrix Comsec and more.

As per general view, recession prevails, but 50 above students are getting placed since past three years by EC dept, VVP Engineering College with the efforts of all staff and company based coaching adopted by EC department.

Government of India has promoted his Make In India project so many new investors globally will come to India to start their business in India. Major focus of Government to is to boost up the Electronics and Communication Industries and related to electronics products. Many new companies in the field of Computer hardware/software, embedded systems, Chip design, Wireless and mobile communication, Telecommunications LED manufacturing, will come with their units and many new jobs will be available to Electronics and Communication Engineers.
